A direct cremation is ideal for those who don't want a fuss and simply require a service that meets their needs, with no hidden costs and no hidden extras, other than things such as when a larger coffin is required. Information and Support

We at Crystal Funeral Planning know that dealing with bereavement can be a difficult task. If someone has died and you would like some help, please feel free to contact a member of our support team.

Questions?

To help you along your journey below are some of the most frequently asked questions our clients ask, but, please feel free to call our support team with any other questions you may have.

Is my money safe and will it pay for the option selected when the need arises?

Some of the UK'S leading funeral providers use Trusts to secure their customers funds to cover the cost of some or all the expenses associated with their chosen funeral plan.

Crystal Funeral Planning are no different, we consider the security of our customer's funds a priority in order for their chosen funeral plan to be guaranteed.

Whether you have chosen to pay for your funeral plan by way of a lump sum, or by a fixed monthly instalment plan, your money will be placed into a secure and independently managed Trust.

When your funeral plan is needed, the Trust simply require an invoice, proof of death and authorisation from two trustees for funds to be released.

Please do not worry, we will provide you, or your representative with all the information you need so you'll know exactly what to do when the time comes.

Can I add additional services?

Yes, additional services can be added and are detailed on the plan comparison table.

Please note some additional services can only be added at the time of need, such as collection of the deceased from a place other than hospital or mortuary.

Can anyone attend the cremation?

In short, if it's our Direct Cremation Plan then, no. This plan is designed for customers who don't want the fuss or expense of a more traditional funeral. If you or members of your family would like a service, then take a look at our Celebration of Life Plan or our popular Traditional Funeral Plan.

Can I choose where and when the cremation takes place?

You can choose your crematorium if you select either the Traditional Funeral Plan or the Celebration of Life plan. If you choose our Direct Cremation Plan then we select the crematorium that best suits the location of the deceased, combined with how you would like the Ashes delivered.

We do not have a lot of money, will they be given the same level of care if I choose Crystal Funeral Planning?

We at Crystal take great pride in our values and commitment to our clients. The cost of the cremation does not affect the care and consideration given to your loved one and the ones left behind.

Are there any hidden costs?

Our Crystal Price Promise guarantees there are no hidden costs, our packages are priced in an open and transparent way. Once you have paid your plan in full. You can relax in the comfort of knowing that your funeral is paid for, taking the burden away from having to find the money in the future or passing the financial burden onto your family.

We offer our own Independent Bereavement Counselling Service which is offered by our sister company Crystal Life Counselling Services
